CONVEYOR BELT LOADER

Trailer mounted

CQL-2000-DT

CQL-2000-DT Conveyor Belt Loader Trailer mounted type is design to deliver loose bulk and baggage to the aircraft compartment. This unit is powered by Diesel Engine and coupled the hydraulic pump for drive the conveyor motor and hydraulic cylinders. This unit economic, reliable and easy to maintain also completed with simple control.

- Length 5120/6120 mm
- Width 1320 mm
- Height 900 mm
- Conveyor max up possition..... 3000 mm
- Boom Length 5000/6000 mm
- Belt Width 700 mm
- Wheel Base 3100 mm
- Rated cap. distributed2000 lbs/909 kg
- Conveyor speed10 m/min-30m/min
- Belt Conveyor 3 layer non skid belt
- Engine Yanmar Diesel TF65RE
- Japan 6.5HP/2200rpm
- Cooling system Water cooled
- Engine start Electric stater
- Battery 12 V DC
- Fuel tank capacity 10 liter
- Boom Cylinder single stage with
- counter balance valve
- Motor hydraulic gear motor
- Valve control Manually / 3 banks
- Max Pressures 150 Bars
- Hyd Tank Capacity 80 liters
- Stabilizer hydraulic type
- Steering system swivel type
- Tyres pneumatic 165/80 R13
- Completed w/ Hour meter, and Emergency pump

OPTION :

- Canopy 1200 x 1200 x 3740 mm
